Carrie, Derek was having problems with their connectivity to SP yesterday. Can you upload this version?

If this continues, we may need to do some more trouble shooting.

Denise & Carla,

Attached are OGC edits on the ozone designations extension paper. We reviewed outside of SharePoint because we were having problems with saving yesterday. Should I be providing this document to anyone else?

We have a lot of edits and comments. Please let Jan and I know if you have any questions, concerns, or would like to discuss any of this.

Please also note that I am currently soliciting feedback from others in OGC who work on PM2.5 and lead to review those bullets under the history header at the bottom of the document. I will send those back to you as soon as I have them today. Ozone and SO2 have already been reviewed by the proper OGC experts. Thanks!
